

## Medical Equipment

T&D provides several services for the medical equipment industry. We have experience with GE, Siemens, Hitachi and Phillips MRI's and CT scanners.

Our Rigging department has installed such machines in major hospitals and medical centers across the country. Our experience and knowledge enables us to handle architectural and manufacturer specifications for simple and complex installations and removals.

T&D's facilities provide secure storage and activation services for medical equipment. Power, cooling and monitoring systems ensure proper working condition for active MRI's while they are stored.

## Printing Industry

T&D provides services for the printing industry. Services include:

- CO<sub>2</sub> Blast Cleaning
- Machine Testing & Repair
- Customer Demonstrations
- Buying & Selling

## Rigging & Transportation

T&D has been in the rigging business for over 20 years. Our experience and specialized equipment make the most complex installation or relocation efficient and trouble free.

Our Rigging Services include:

- **Rigging Experience:** printing presses, pre-press and post-press machinery, MRI's, CT scanners, chillers and boilers, converting equipment, machine tools, injection molders, generators, die-cutters, robots, air handlers, woodworking equipment, switchgears, and UPS systems
- **Specialized Equipment:** engineered hydraulic gantries, forklifts, and specialized tools
- Machine Installation and Relocation
- Plant Relocation
- Overseas & Domestic Container Services

T&D also offers turnkey transportation services for transporting across town or across the country.

## About Us

T&D Machine Handling has been in the rigging industry for over 20 years. Our experience, knowledge, and professionalism will provide you with unparalleled service.

Our reputation has been built on keeping our customers in production with as little down time as possible. We are accustomed to the logistics needs of extremely sensitive machinery and are equipped to handle the most delicate components in the marketplace.

T&D Machine Handling partners with Windward Transportation Company and TD Global Group to ensure reliable, extended services are available to our customers.

## Storage Facilities

Our two facilities provide 200,000 square feet of storage capacity. Both buildings are equipped with sprinkler and security systems. We provide access to electrical and water hook-ups for the specific needs of your products. Private and secure storage rooms are also available.

*Bluegrass Lakes Facility*

*Trotter Drive Facility*

All inventory is assigned computer coded control numbers. Inventory status is available electronically for off-site inventory management.

## Loading & Offloading

T&D's facilities offer 13 loading docks and two drive in entries. Our 55 ton, overhead, indoor crane enables us to handle a wide variety of machinery easily and efficiently. All shipments received at T&D facilities are digitally photographed for your documentation and protection.

We provide custom crating, containers, and skids for domestic and international shipments. We offer packaging services including lubrication, plastic wrapping, and heat shrinking.
